Dreams

Spiritual practice

CANONICAL SOURCE - VERBATIM

As we sleep we connect with the unconscious mind.

Find the theme of the action in your dream, the verbs of the narrative; see the action, then see the symbols; then begin to see the mirror of waking life. This is the dreamers way of being.

If you will attune your awareness to those metaphors packaged for your conscious mind you will grow into a superconscious state. When you leverage this time for your conscious unfoldment into higher consciousness you will lead the dreamers way of being.
